

FlexLM のオプションファイル編集機能が EasyAdmin についています。
OpenLM ライセンスファイルにオプションファイル編集ライセンスがない場合は
使用できません。

The screenshot shows the EasyAdmin interface with the 'Options Files Management' window open. The window is divided into several sections:

- Administration - Options Files:** A table listing various option files with columns for Server, Vendor, Description, and Data Flow Direction.
- Options Files Management:** A detailed view of a selected feature, showing its name and a table of permissions.
- Users:** A section for managing users, with a table showing columns for User name, Reserved, Included, Excluded, Borrow Inclu..., Borrow Exclu..., and Max.

Server	Vendor	Description	Data Flow Direction
27005@win10.openlm...	adskflex	the default option file	License Server -> OpenLM
710@win10b.openlm.biz	ARCGIS	the default option file	License Server -> OpenLM
ArcGIS - Production	ARCGIS	the default option file	License Server -> OpenLM

Feature	Permission	Value	Units
87417IDSS_2021_OF	LINGER		sec
	MAX_BORROW_HO...		hours
	BORROW_LOWWAT...		# licenses
	MAX_OVERDRAFT		# licenses
	TIMEOUT		sec

User name	Reserved	Included	Excluded	Borrow Inclu...	Borrow Exclu...	Max
